What to bring:

- Please bring your original passport.
- Please bring your glasses or contact lenses if you use them.
- Please bring any relevant information regarding past health concerns, such as specialist letters or test results.
- A parent or legal guardian must accompany you if you are under 18.
- If you are pregnant, please bring a letter from your midwife or doctor confirming your estimated due date.
- A urine sample is required for analysis. For female patients, please be aware that we are unable to test your urine until at least three days after your period has finished.
- Please read the eMedical client consent and declaration form, and then sign and date the last page.
- If the blood test results are abnormal, further testing may be required at the patient's expense.
- If any of the checks show abnormalities, a detailed medical report will be necessary.
